Summary of Qualifications

- Proficient in C, C++, Python, HTML, CSS, JavaScript, SQL, and LaTeX, applied across systems programming, full-stack web development, and technical documentation.
- Strong foundation in computer systems, algorithms, and data structures, including memory management, process control, and efficient algorithmic problem-solving.
- Experience building and deploying software projects, integrating backend logic, relational databases, and frontend components using GitHub-based version control and Render.

Education

The University of Colorado | Boulder, CO

Anticipated May 2027

B.S Computer Science

Business Minor

Experience

Software Engineering Intern

May 2026 – June 2026

Topia | *Denver, CO*

- Reviewed 50+ Linear tickets, uncovering critical defects and improving release quality.
- Resolved 5+ software defects using AI-assisted development tools, accelerating debugging efforts.
- Partnered with 10+ engineers to deliver a multi-stage Support Access System, strengthening enterprise data security and enabling expanded revenue opportunities for large-scale customers.

Software Engineer

September 2025 – December 2025

Rundown | *University of Colorado, Boulder, CO*

- Developed *Rundown*, a CU Boulder-focused social platform available to 100% of the student body, using HTML, CSS, JavaScript, and SQL as part of a 7-person development team.
- Delivered 10+ key application features, including posting, community creation, and email verification.
- Built responsive UI components and integrated database features for real-time content storage.

Full Stack Software Developer

September 2025 - Present

Software Development Tools and Methods | *University of Colorado, Boulder, CO*

- Developed and deployed a full-stack personal website using Node.js, Express, and Handlebars, delivering a live, production-hosted application accessible to employers.
- Implemented server-side routing and dynamic templating, integrating frontend and backend assets.
- Managed cloud deployment and environment configuration on Render, resolving cross-platform dependency issues and ensuring reliable production builds.

Leadership

Vice President

November 2025 – Present

Sigma Alpha Mu Fraternity | *University of Colorado, Boulder, CO*

- Oversaw operations of 10+ chair positions, providing guidance, setting expectations, and ensuring consistent execution of chapter goals and events.
- Managed risk-management protocols and safety planning for 5+ major events each semester.
- Represented the chapter at Conventions and two Chapter Leaders Day (CLD) conferences.

Activities & Recognition

Seal of Biliteracy in Spanish

May 2023

National AP Scholar

May 2023

Fleur-de-lis Society

February 2025
